CHAMPION, (Alberta) THURSDAY, Sept. 20, 1934

NUMBER 22

## Only Firestone has

## SAFE-T-LOCKED CORDS

**Safe-T-locked Cord**  
This is the only representative rubber cord line having been equally spread and pervading from the center of the tire to the outer edge, where it is held in place by a single unit.

**Outgoing Cord**  
Most unshaded areas between the strands that are separated by a rubber cord, which is held in place by a single unit.

**2 EXTRA CORD LIES UNDER THE TREAD**

TODAY'S driving conditions put a terrific strain on tires. That is why you need the strongest and safest—Firestone, with their Safe-T-locked cords.

In this patented construction every part of the tire body is welded together with pure rubber so that everything moves as a single unit eliminating internal friction—the greatest enemy of tire life. For this reason alone it pays to buy Firestone, but in addition you get all the Firestone extra values that give 25 to 40% extra tire life and a guarantee for one year or no extra cost.

Replace thin, worn tires now—see the nearest Firestone Dealer today.

## Entertains in Honor Ruby's Second Birthday

Mrs. O. Harper entertained at tea on Wednesday September 19th in honor of Ruby's second birthday. Guests present included, Mrs. Roy Hammon, Mrs. T. Davis, Mrs. W. A. McIntyre, Mrs. Fred Clever, Mrs. Harry Smith, Mrs. Fred Wise, Inspector Bremner, the Little Miss Betty Lou Davis, Master Glenn Hammon and Master Mervin Smith.

## Margurite Vanbesien Seriously Ill

Word was received in town this week of the very seriousness of Miss Margurite Vanbesien who is a patient in the General Hospital in Vancouver. Upon receipt of the word Geo. Duguesne, accompanied by Miss Marjorie Ferguson and Harry Ferguson, left for the coast. The last report is to the effect that Miss Vanbesien has showed slight improvement.

## Leaving District

Mr. and Mrs. Fred Alder and family expect to leave shortly for Pentiction B. C., where they will make their home.

Mr. Alder came to the Champion district in 1905 homesteading 12 miles southwest of town. In 1917 he moved to a location one and a half miles southwest of Champion and built a beautiful residence, at the same time beautifying the landscape. Mr. Alder has always played a prominent part in civic affairs and during their long residence here the family have made many associates, who will regret their departure. The best wishes of the community go with the family to their new home.

## NORTH AMERICAN WHEAT SITUATION (Total Annual Average Wheat Production 1200 Million Bushels)

Due to attempts to maintain the price of wheat in 1929 and 1930, the United States and Canada piled up large unsold wheat surpluses which have persisted to quite recent months. Last year's unfavorable harvests decreased the surplus in the United States by one hundred million bushels. The present year's disastrous crops of wheat and coarse grains in both the U.S.A. Canada and other countries, coupled with an increasing world demand for wheat for bread purposes, and to a certain extent for animal feeding, are expected to bring hardheaded surplus down almost to a normal amount, i.e., the "Carry-over" existing before 1928. If this proves to be correct then normal prices for wheat, in relationship to other commodities, should prevail.

## THE TENDERFOOT

By  
GEORGE B. RODNEY  
Author of "The Coronado Trail,"  
"The Canyon Trail," etc.

### CHAPTER I.

"When you tell me that you're  
going out to Crevasse County to  
claim your half of the old Hour-  
glass ranch, I tell you, Mr. Keene,  
that you're just asking for trouble."  
Simon Burwell, first vice-president  
of the Drovers Bank in Cato, leaned  
back in his chair, spread his hands  
wide and started to laugh. "You  
took him in from head to foot and  
frankly liked what he saw. Then he  
studied an open letter on his desk."

"Your uncle was a good friend  
of mine," he said. "But he was very  
careless or unwise to make the will  
he did."  
"What do you mean?" Gerald  
Keene straightened up in his chair  
and Simon Burwell grinned at him.

"Don't carry a chip on your shoulder,  
boy. I'm not criticizing old  
Peter. Why, boy, I loved him. Your  
uncle lived many years in the West.  
He and old Joe Carr were partners  
for years. It was quite natural that  
when Peter died he should leave the  
Hour-glass ranch to his partner, Joe  
Carr. But when he dragged you in  
to the matter he only complicated  
matters. How long since you saw  
your uncle?"

"I never laid eyes on him in my  
life," said Keene. "He was my  
mother's brother and the family was  
widely separated. I happened to learn  
of the bequest quite accidentally. I  
had been . . . in business . . . in the  
Northwest and I happened to drop in  
at my old home. There I learned  
about the will so I got the letter  
from Judge Frome to you to identify  
myself. The old judge told me that  
you have always handled the ranch's  
business. That's so, isn't it, sir?"

"It has never kept me busy, I'm  
sorry to say," said Burwell. "There  
is no business worthy speaking of.  
You're the half owner of a big ranch  
that doesn't pay a dollar of dividends  
and won't. Have you seen your  
uncle's will?"

Burwell did not wait a reply. He  
went to a wall safe and took out a  
will with a solemn document that he read  
meticulously, accenting every word.

## Way to Ease Headaches, Pain Almost Instantly

METHOD OFFENS RELIEVES NEURALGIA  
AND RHEUMATIC PAINS IN MINUTES!

Remember the pictures below when  
you want fast relief from pain.  
Demand and get the method that  
prescribes Aspirin.  
Millions have found that Aspirin  
eases even the bad headache, neuralgia  
or rheumatic pain often in a few  
minutes!

In the stomach as in the glass  
here, an Aspirin tablet starts to dis-  
solve, or disintegrates, almost the  
instant it touches moisture. It be-  
gins "taking hold" of your pain

practically as soon as you swallow it.  
Aspirin does not harm the blood.  
Remember, then, that Aspirin is  
Aspirin Speed and Aspirin Soften.  
And, see that you get ASPIRIN, it  
is made in Canada, and all druggists  
carry it. Get it for about 10¢ a box  
in the form of a cross on every  
Aspirin tablet.

Get 12 of 12 tablets or economical  
bottle of 24 or 100 at any druggist's.

### Why Aspirin Works So Fast

IN 2 SECONDS BY STOP WATCH  
An Aspirin tablet starts to disinte-  
grate and go to work.

When in Pain Remember These Pictures  
—ASPIRIN DOES NOT HARM THE HEART—

If you're not mighty careful, you'll  
have your head pulled under."

"Huh, huh, I don't quite see. If  
old man Carr is loan' money, who  
pays it out? Where's it comin'  
from?"

"You tried to tell me. God help  
you if you try to keep old Joe Carr's  
head above water. He'll only drown  
you both. But you'd better run out  
there yourself. Mr. Keene, and take  
a look at things."

"Thanks. I'm going to do exactly  
that."

As Gerald Keene rose and took his  
hat, Simon Burwell got a glimpse  
of gray eyes that narrowed in the glare  
and of a mouth that was almost  
straight above a full lower lip. The  
knowing vice-president grinned a  
little.

"I think my visitor will go far,"  
he muttered. "I never even asked  
him what his occupation is."

"Huh, a man well known to me. I  
don't learn much about a ranch, how-  
ever . . . Old Judge Frome evidently  
takes an interest in him . . . And  
I'm well used to the business. But  
he rose and walked to the long win-  
dow and watched his late caller as he  
left."

A half-hour later Gerald Keene  
plunged through the door of a hotel  
room, slammed the door and gripped  
the shoulder of a man who was sitting  
in a chair by the window watch-  
ing the world spin past between the  
tops of his boots on the sill.

"Right," he said, "we're in a mess  
right up to our necks. I swear I  
don't see any answer to it. . . . His  
lean face and his eyes twinkled.

"There are eyes that glint and eyes  
that twinkle. These twinkled. There  
is a difference. One has humor; the  
other has none. Stone studied his  
friend for a brief moment.

"Shoot," he said.  
"Well, I gave old man Burwell my  
letter of introduction and he was  
kind enough to let me see the Hour-  
glass ranch. It seems that by my uncle's  
will the ranch is mine; the other  
half belongs to his partner, Joe Carr.

"He lives on the Hour-glass with  
his daughter and has made a bad  
failure of it. If either of us dies,  
the other gets the entire ranch."

"What could he tell you about your  
uncle?" drizzled Stone.

"Very little; only that he was a  
valuable old fellow and that he was  
mighty fond of Carr. Oh! He told  
me, too, that two men, Dustin and  
Goddard, in the past few years have  
bought up a lot of scrip and started  
a ranch next to the Hour-glass.

"They call it the Broken Spur. Bur-  
well says old man Carr drinks a great  
deal and is convinced that Dustin and  
Goddard have been systematically  
looting the Hour-glass for years. 'Too  
bad about old man Carr's drinks,' he  
said."

"I'm sure. You can reform any-  
body but a systematic drinker. Go  
on."

"That's all. Burwell said there a  
regular feud between the two ranches  
that reached the status of a Civil  
War on pay-days. I reckon old man  
Carr's been shootin' off his mouth  
too much after a drinkin' spell. You  
know how it is. They say a lot of  
men're they ever started to say.  
Could you find out anything?"

"A little. While you were over at  
the bank I hunted up a man I know.  
You see, I used to work for the  
Lazay M. in Nebraska. They were a  
member of the Stock-ranchers As-  
sociation and that's a lucky bet in a  
cattle country. Just because Ne-  
braska went crazy over Free Silver's  
reason her people shouldn't be  
same in spots. Old Ben Lyon, who  
used to be their attorney, is prac-  
ticing here now. I saw his shingle.  
I went to see him while you were  
with Burwell."

"Well, go on . . .  
Stone thoughtfully rolled a cigar-  
ette and went on as though talking  
to himself.

"Ben says he's known Joe Carr  
since he was a pup. He says that  
drink or sober, old Carr is as straight  
as a lariat but for those years he's  
been up against hard luck. He  
plain up against it. About three  
years ago a pony slammed him  
against a buckin'-post in a corral  
and broke his leg. He's been a  
lame since then. That's when he began to drink. I  
reckon. It busted him up a good  
deal. Not enough to keep him from  
ridin', but enough to make him a  
poor bet on a ranch that needs two  
good eyes. He's got a fine manager  
in one Frank Crew, but they just  
can't run both ends meet."

(To Be Continued)

The Alberta honey crop of 1923  
was almost twice as large as that of  
1922 and was readily marketed at in-  
creased prices. As a result, owners  
of commercial apiaries in the south-  
east part of the province report a  
fairly satisfactory year.

The American flag of 15 stars and  
15 stripes was in official use for 23  
years, from 1795 to 1818.

### Carried Out Old Idea

Peter The Great First Thought Of  
Huge Russian Cannon

Praise to whom praise is due—and  
most assuredly praise is due to the  
Russian engineer, Serge Xyk, en-  
trusted by the Soviet government  
with the gigantic task of linking the  
Baltic and the White sea by means of  
a canal, said to be the biggest in the  
world. It was in December, 1931,

that operations started under the  
most discouraging conditions. To  
begin with, an efficient staff had to  
be trained, recruited for the most  
part from young graduates with lit-  
tle but enthusiasm for their equip-  
ment. Then there were the natural  
obstacles—floods, intense cold, dif-  
ficulties of supplying the necessary  
building materials, food for the work-  
ers. On top of this there were no  
skilled craftsmen to be found in  
the locality and a totally insufficient  
number of unskilled workmen. Not  
the least remarkable of Xyk's  
achievements is the method by which  
these men were trained. Over ten  
thousand, were converted into will-  
ing workers by promises of freedom  
if they faithfully performed their  
duties under the best of conditions.

Many inspiring tales are told of  
the changing of hardened criminals to  
respecting patriots, who labor with  
the tools of the great lakes, Onega  
and Ladoga, for the purpose and this  
has now been done. On the Onega  
White sea section sixteen dams had  
to be built, with 53 canals, 22  
discharge basins, 19 locks, of which  
13 had to be constructed in hard  
rock over a hundred feet below sea  
level; while millions of cubic yards of  
rock had to be blasted and removed,  
and a million and a half trees were  
cut down and carted away.

Eastern and northeastern Indian  
tribes have a tradition of a descent  
from the sky as the beginning of  
human inhabitants on the earth; In-  
dian peoples of the mountainous and  
southern regions of the south and  
southwest believe their ancestors  
ascended from the underworld.

It is said that Peter the Great had  
such a canal in mind when he trans-  
ferred the capital from Moscow to  
St. Petersburg. His idea was to  
utilize the two great lakes, Onega  
and Ladoga, for the purpose and this  
has now been done. On the Onega

## Little Helps For This Week

"I have called upon Thee for Thou  
with heart the O God: incline Thine  
ears unto me and hear my speech."  
Psalm 106.

"Ye people pour out your heart be-  
fore Him: God is a refuge for us."  
Psalm 42.

Whatever the care that breaks  
their rest,  
Whatever the wish that swells their  
breast;  
Spread before God that wish,  
That care.

And change anxiety to prayer.  
Trouble and perplexity drive us to  
prayer, and prayer driveth away  
trouble and perplexity.

Whatever it is that preseth  
Thee, go tell to thy Father, but so shalt  
matter into His hand and so shalt  
thou be freed from the dividing, per-  
plexing care the world is full of.

When these are either to do or suf-  
fer anything go tell God to aid thee,  
acquaint Him with it, yea burden  
Him with thy trouble, and thou hast  
done with caring. No more care, but  
quiet sweet diligence in thy duty  
and dependence on Him for the  
carrying of thy matters. Roll thy  
self and thy cares as one burden on  
thy God.—St. Leighton.

A Banker's Passport  
Carries Engraved Portrait Clipped  
From Ten Dollar Bill

All passports bear a photograph of  
the holder, but there is one property  
authorized and issued to a Canadian  
without his photograph—it carries an  
engraved portrait clipped from a  
\$10 Bank of Montreal bill. The  
holder's name is Sir Frederick Wil-  
liams-Taylor, a director and formerly  
general manager of the Bank of Mon-  
tréal.

The circumstances under which  
Sir Frederick clipped the bill and the  
reasons for his action are not re-  
lated. The engraving to his passport  
application are not known, but this  
well known Canadian excelled the  
others in being attributed to banking  
by retaining the serial numbers in  
order that the bill might be replaced  
by a new note.—Financial Post.

THE RHYMING  
OPTIMIST  
By Aline Michaels

Life would defeat us as we go by  
Yet, can she defeat us, though she  
may?

Though she forget the promise  
made,  
Think, my we yet be wholly be-  
trayed?

For all her morning,  
Of hope's bright gleams,  
In youth's faded morning  
She gets fair dreams.

She gave us laughter  
And love's sweet cheer;  
That, what comes after  
We need not fear.

Fligh youth must perish  
True love endures;  
Leave hearts still cherish  
Bright, bright lures.

Infantile Paralysis Vaccine  
Canadian Research Worker Has  
Developed Vaccine For Dread  
Disease

Discovery of an apparently effec-  
tive infantile paralysis vaccine was  
explained to 2,000 delegates and lay  
members at the closing session of the  
American Public Health Association  
convention.

Dr. Maurice Brodie, young Cana-

New York City health department,  
described recent experiments with  
the polio-vaccine which appar-
